

Tien Nguyen

PRODUCT MANAGER / PRODUCT OWNER

tiennguyenthao@gmail.com | linkedin.com/in/tiennguyenthao | github.com/tiennguyentt | Ho Chi Minh City

Product Manager and Owner with **5+ years** across B2B fintech, payments, insurance, e-commerce, and ERP, from 0-to-1 launches to enterprise product. **Ex-full-stack engineer** who reads the code and debugs alongside engineering, not around it. Built an **AI-native PM system** that compiles meeting transcripts into source-traced, graded specs, and ships personal products solo with AI agents.

EXPERIENCE

Colonial Surety 2025 to present

Product Management Engineer · B2B fintech, insurance, payments

- + **Fiserv PCI passed.** Drove an emergency Transax to CardPointe gateway migration across 3 production platforms on a hard deadline after the primary gateway shut down.
- + **5 developers building in parallel.** Wrote a scenario payment-parameter matrix from ad-hoc CTO input so the team could build concurrently instead of serially.
- + **7 insurance products.** Designed the bundling flow (knockout logic, unified claims, dynamic naming), an edit-policy matrix (upgrade, cancel, endorsement), and partial-failure edge cases.
- + **B2B SSO provider.** Turned ambiguous CTO direction into a structured BRD defining Colonial as an SSO provider for partners: 2 user types, adaptive registration, cross-partner sessions, redirect-back.

Hoookie JSC 2023 to 2025

Product Owner · Web3, fintech (outsource)

- + **400ms cross-chain settlements.** Led the team building a non-custodial cross-chain wallet for a US client, with KYC/AML and fiat-crypto bridging via Solo and Bridge (Stripe).
- + **137% ROI in backtests (\$10K to \$23.7K in ~2 months).** Ran roadmap, backlog, and Scrum for an autonomous on-chain prediction-market fund powered by Score (Bittensor Subnet 44).
- + **Shipped aVault and aLink.** Permissionless USDC deposits with automated strategies, and a token-gated LLM terminal for mispricing alerts; ran the DKING to SIRE rebrand.
- + Specced a Telegram-integrated trading toolkit for the TON ecosystem: sniping, automated trading, MEV protection, and referrals.

Olmo Technology 2022 to 2023

Product Owner · social e-commerce, web and app

- + **12-person scrum team** (9 devs, 1 QC, 1 designer, 1 BA). Launched a livestream app in 6 months and an e-commerce platform (booking plus vouchers) in 4.
- + **30% increase in bookings.** Reworked the mobile booking flow and cut the bank-transfer payment task time inside a week.
- + Shipped livestream gifting and live-booking. As Junior PO: competitor research, personas, backlog and stories, delivering sprint items **20% faster**.

4/10 Fire Protection Trading Service 2019 to 2022

BA and Associate PM · ERP

- + Owned resource-management and quality-control ERP modules, focused on integration and operational efficiency.

BUILDING (SOLO, WITH AI AGENTS)

Petmood. AI pet-health triage for Vietnam: a photo plus symptoms returns a triage level and the nearest vet. Flutter, Supabase, Vision + LLM. Beta in HCMC.

AnDigi. An agent-operated insurance app for Vietnam where LLM agents run the core workflow end to end, from quote to instant AI claims. Benchmarked on China's Ping An ecosystem. In progress.

SKILLS

Payments & compliance: gateway migrations (Transax to CardPointe), Fiserv PCI certification, payment-parameter matrices, partial-failure handling, B2B SSO and partner integrations

Insurance & B2B product: policy lifecycle rules, multi-product bundling, unified claims flows, endorsements and cancellations, knockout logic

Web3 product: non-custodial cross-chain wallets, KYC/AML and fiat-crypto bridging, on-chain settlement and atomic swaps, autonomous on-chain funds (Bittensor), TON trading tooling and MEV protection

AI-native PM systems: LLM knowledge base (transcript to structured wiki), truth-hierarchy conflict resolution, automated spec grading and health checks, agent skills and subagents (Claude Code), solo build to production with AI agents

Analytics: GA4, funnels, booking conversion, product usage review

Tools: Jira, Notion, Figma, GitHub
