

Tien Nguyen

AI Product Manager and Product Owner · Ho Chi Minh City

I lead the R&D team that builds Agentic Ops Platforms for Applied AI Enterprise work. Agents draft the first pass. I check every claim against a source, score the result against known facts, and sign off before anything ships.

EXPERIENCE

- Green SM (Vingroup)

Now

R&D lead · Agentic Ops Platforms

- Lead the R&D team that designs and builds agentic ops platforms. Employer product names and internal architecture stay confidential.
- Colonial Surety

Prior

Product Management Engineer · B2B fintech, insurance, payments

- Ran a PM workflow with agents. I graded transcripts, linked specs to sources, and blocked any change that lacked my sign-off.
 - Led an emergency PCI payment cutover from Transax to CardPointe across three live platforms.
 - Designed seven insurance products in one flow, including knockout rules, shared claims, and partial-failure cases. Wrote the B2B SSO brief for two user types and partner sessions.
- Hoookie JSC

2023–2025

Product Owner · Web3 and fintech, on-site with clients

- Wrote requirements for Keeta, a US payments network aimed at 400 ms settlement. Covered use cases, data flows, and acceptance checks.
 - Built Sire.bot. A two-month backtest returned 137%. I scored model output against known results before release.
- Olmo Technology

2022–2023

Product Owner · social e-commerce

- Raised bookings 30% by fixing the mobile booking path and bank-transfer flow. Shipped livestream commerce with chat, marketplace, and gifting.
- 4/10 Fire Protection Trading Service

2019–2022

Front-end developer, then BA and associate PM · ERP

- Built ERP modules from code through rollout. Owned resource management and quality control.

PUBLIC DEMOS

- Gelato.

Framework that connects agent tools for company ops. Orchestration, gates, and decision logs. In progress.
- Knowledge Engine.

Turns meeting notes into a wiki with sources. Flags conflicts. Grades specs. Needs my sign-off before engineering starts.
- Recon.

Daily research sweeps. Scores each source for relevance, credibility, and predictive weight.
- Sport Quant.

Betting terminal with hard risk caps. Models advise. Code decides the size.

SKILLS

- Discovery

Workshops, scope, stakeholders, competitor research
- Delivery

Pilots, integrations, production rollout, Scrum
- Requirements

BRD, SRS, PRD, stories, acceptance checks
- AI controls

Source links, eval thresholds, human sign-off
- Ops

Agent workflows, MCP, APIs, model choice

EDUCATION

- Anthropic Claude Code and Agent Skills

2026
- Product School AI Product Certification

2025
- CoderSchool Full Stack Developer

2019
- HCMC University of Education, BA English
